SIDDHARTH P SANTHOSH

| +91 6282762713 | siddharthpsanthosh07@gmail.com | Portfolio | Linkedin | GitHub |

TECHNICAL SKILLS:

- **Backend Development:** Go, Node.js (Express.js), Python, FastAPI, Flask, PHP
- **Databases:** PostgreSQL, MongoDB, SQL, BigQuery
- **Data Acquisition & Processing:** Web Scraping (BeautifulSoup, requests, Selenium), APIs, IPFS, Pandas, NumPy
- **Tools & Platforms:** TensorFlow, Docker, GitHub, Bash scripting, Linux networking, PgAdmin, Tableau, Power BI

PROJECT EXPERIENCE:

Anti-Money Laundering System

- Designed a backend using **Express.js** with **MongoDB** to process financial transactions.
- Integrated **TensorFlow ML models** for fraud detection and exposed REST APIs for predictions.
- Collected and pre-processed AML datasets from **Kaggle** for training and evaluation.

Farey the Genie

- Built a **price comparison application** using **Flutter** and **MongoDB**.
- Developed web scrapers with **Selenium** to extract data across multiple food vendors.

Decentralized Audiobook Platform

- Developed a **Go-based backend** with React.js frontend for publishing audiobooks.
- Implemented decentralized storage using **IPFS** to ensure author ownership.
- Published a research paper on this system (DOI: 10.15680/IJIRCCE.2024.1205235).

Smart Medical Prescription Service

- Built a full-stack web app for doctor appointments & medicine booking.
- **Backend:** PHP + SQL | **Frontend:** HTML, CSS, JavaScript.

Other ML/AI projects

- **Smart city camera systems**: Developed ML model using YOLO for detecting various city features and abnormalities
- **Wild fire detecting system**: Developed wildfire detecting prediction system using collected data's from Kaggle
- **Weather forecasting**: Developed weather forecasting system using collected data from the sun at the nearby observatory.

INDUSTRIAL EXPERIENCE:

Generative AI Intern

Data Teach (Start-up) | July 2025

- Working on generative AI projects with focus on model development and experimentation. Collaborated in designing backend and database in PostgreSQL
- Implementing FastAPI endpoints for database.

Data Analyst Intern (Contract)

UST Global | may - June

- Performed data annotation tasks including YOLO conversion for object detection models.
- Prepared high-quality training datasets to support computer vision projects.
- Ensured accuracy and consistency of labelled datasets used in ML pipelines.

EDUCATION:

Bachelor of Technology | APJ Abdul Kalam Technological University, Pathanamthitta, Kerala | Jun 2024| CGPA – 6.8

CERTIFICATIONS / AWARDS:

- Keltron: Data science and AI
- Udemy: Cybersecurity and ethical hacking
